Subject: Uber In SC

To whom it may concern,

My husband and I had our wedding in S Carolina this past October, and thanks to Uber, 120 people got around town safely without having to drink and drive. I was so excited when learned that Uber was available there because I had peace of mind knowing my loved ones would be safe.

I live in Philadelphia where we use Uber one a daily basis, and I firmly believe you should reconsider your order to have Uber stop their operations. It not only provides reliable and safe rides to thousands of people a day all over the country, but also provides jobs to thousands as well. When I was in Charleston, my Uber driver told me she was new to the city and this was a great way for her to have employment and learn the area. Why take that away from your tax paying citizens?

Smarten up and remove your order.

Regards,
Jacki Silva

To whom it might concern,

Making uber illegal in South Carolina is a mistake. I attend the College of Charleston and use uber as a safe and cheap way to get around the city. I'm a small girl and there have been many instances of rape and abuse on our campus. Uber keeps me safe and my parents at ease knowing not only will I be safe from criminals but also that no one will be drinking and driving. Taxis in this tourist city are too expensive did college students so uber really is our only option. Please reconsider this issue.
